INTRODUCTION

Website : <https://www.part2ai.com/>

Part2AI is a cutting-edge mobile platform providing personalized AI chatbots, called "Tellers," for business and personal use. An "Asker" interacts with a Teller by asking questions and having tailored conversations.

A user can create one or more Tellers, based on their subscription plan.

Once a Teller is created, it can be shared publicly (visible to all "Askers") or remain private (visible only to users that have the specific Teller tag (beginning with a "@"). Tellers must be assigned a category at the time of creation and training. Tellers are ranked based on popularity (determined by the number of Likes and the number of conversations)

Questions or Help? - Contact us via :

1. Email us info@part2ai.com - Please mention PartAI Help in the subject line so we can respond ASAP.
2. Go to [part2ai.com](https://www.part2ai.com), fill out the form at the bottom.

SECTION 1 : CREATE AN ACCOUNT

Create an account with valid regular email, Google or Apple. An 6 digit pin will be sent to your email . You must enter that code

The screenshot shows the login interface of the 'part2' app. At the top, the status bar displays the time 12:23, 'TestFlight' text, and signal/battery icons. The app logo 'part2' is centered. The login form is enclosed in a rounded rectangle with a red border. It contains an 'E-mail' field with a placeholder 'Enter your email' and a user icon, a 'Password' field with a placeholder 'Enter your Password' and an eye icon, a blue 'Log in' button, and a red-bordered link 'Forgot password?'. Below these is a separator line with 'OR' in the center. Two social login buttons are present: 'Log in with Google' (with the Google logo) and 'Log in with Apple' (with the Apple logo). At the bottom of the form is a link 'Don't have account? Sign up'. Three external text boxes with arrows provide instructions: one points to the email and password fields, another to the 'Forgot password?' link, and a third to the Google and Apple login buttons.

SECTION 2: MAIN SCREEN

SECTION 3 – SARA AI – GENERIC TELLER

SECTION 4: "ALL" TAB

The screenshot shows the 'All' tab in a mobile application. At the top, there's a status bar with the time 10:03, signal strength, Wi-Fi, and battery at 81%. Below the status bar, the app header shows a share icon, the word 'Chats', a search icon, and a menu icon. A category bar below the header contains 'SaraAI', 'All' (highlighted with a red box), and 'Mine'. Below the category bar, there are expandable category buttons: 'What's New', 'Customer Care', 'Education', and 'Health' (which is expanded). The 'Health' category shows a list of Teller cards. Each card has a profile picture, a title, a description, and three icons: a thumbs up (likes), a speech bubble (conversations), and a heart (favorites). The 'Alzheimers Facts' card has 2 likes, 14 conversations, and is favorited. The 'Heimlich Mane...' card has 0 likes, 5 conversations, and is favorited. The 'Heart rate' card has 1 like, 3 conversations, and is favorited. The 'Smallpox' card has 1 like, 3 conversations, and is favorited. The 'Weight Loss Tips' card has 0 likes, 3 conversations, and is favorited. At the bottom of the 'Health' category list is a 'More' button. Callout boxes provide instructions: 'Click on '+' to expand the category or '-' to collapse the category' points to the '+' icon next to 'Customer Care'. 'List of Tellers in selected category, sorted by most popular. Click on any Teller to converse with it. Click on any Teller to ask questions on the Teller's Chat Screen' points to the 'Education' category. 'Add a Teller to your Favorites (in "Favorites" tab)' points to the heart icon on the 'Alzheimers Facts' card. 'Total Number of Likes that users have given a Teller – Likes are given in the Chat screen' points to the thumbs up icon on the 'Alzheimers Facts' card. 'Total number of conversations with this Teller' points to the speech bubble icon on the 'Heimlich Mane...' card. 'Click to see all Tellers in this Category' points to the 'More' button at the bottom of the 'Health' category list.

Update Teller Done

Tag

@Atacama

Hashtag

#atacama

NOTE: A Teller tag is used for your users (Askers) to find your specific public or private Teller, and must be unique. One or more hashtags can be assigned to your Teller, based on the material you have used for training.

Next

A Teller tag will automatically be created based on the Teller Name

Enter one or more hashtags describing the Teller – these will be used so that your new Tellers can be easily found by other users (Askers)

6.3 TELLER ACCESS

2:23
TestFlight

< Update Teller Done

Public Access
Anyone with the link can access

Private Access
Only users you choose can access

NOTE: A Public teller can be found by anyone; a Private teller can only be found using its Teller tag that you specified earlier

Next

If set to Public, all users can view and use your Teller

If set to Private, then your askers must have your specific Teller Tag to access the your Teller,

Custom Wallpaper

What are the symptoms of Parkinson's?

Symptoms include tremors and stiffness

What causes Parkinson's disease?

It's caused by the loss of dopamine-producing neurons in the brain

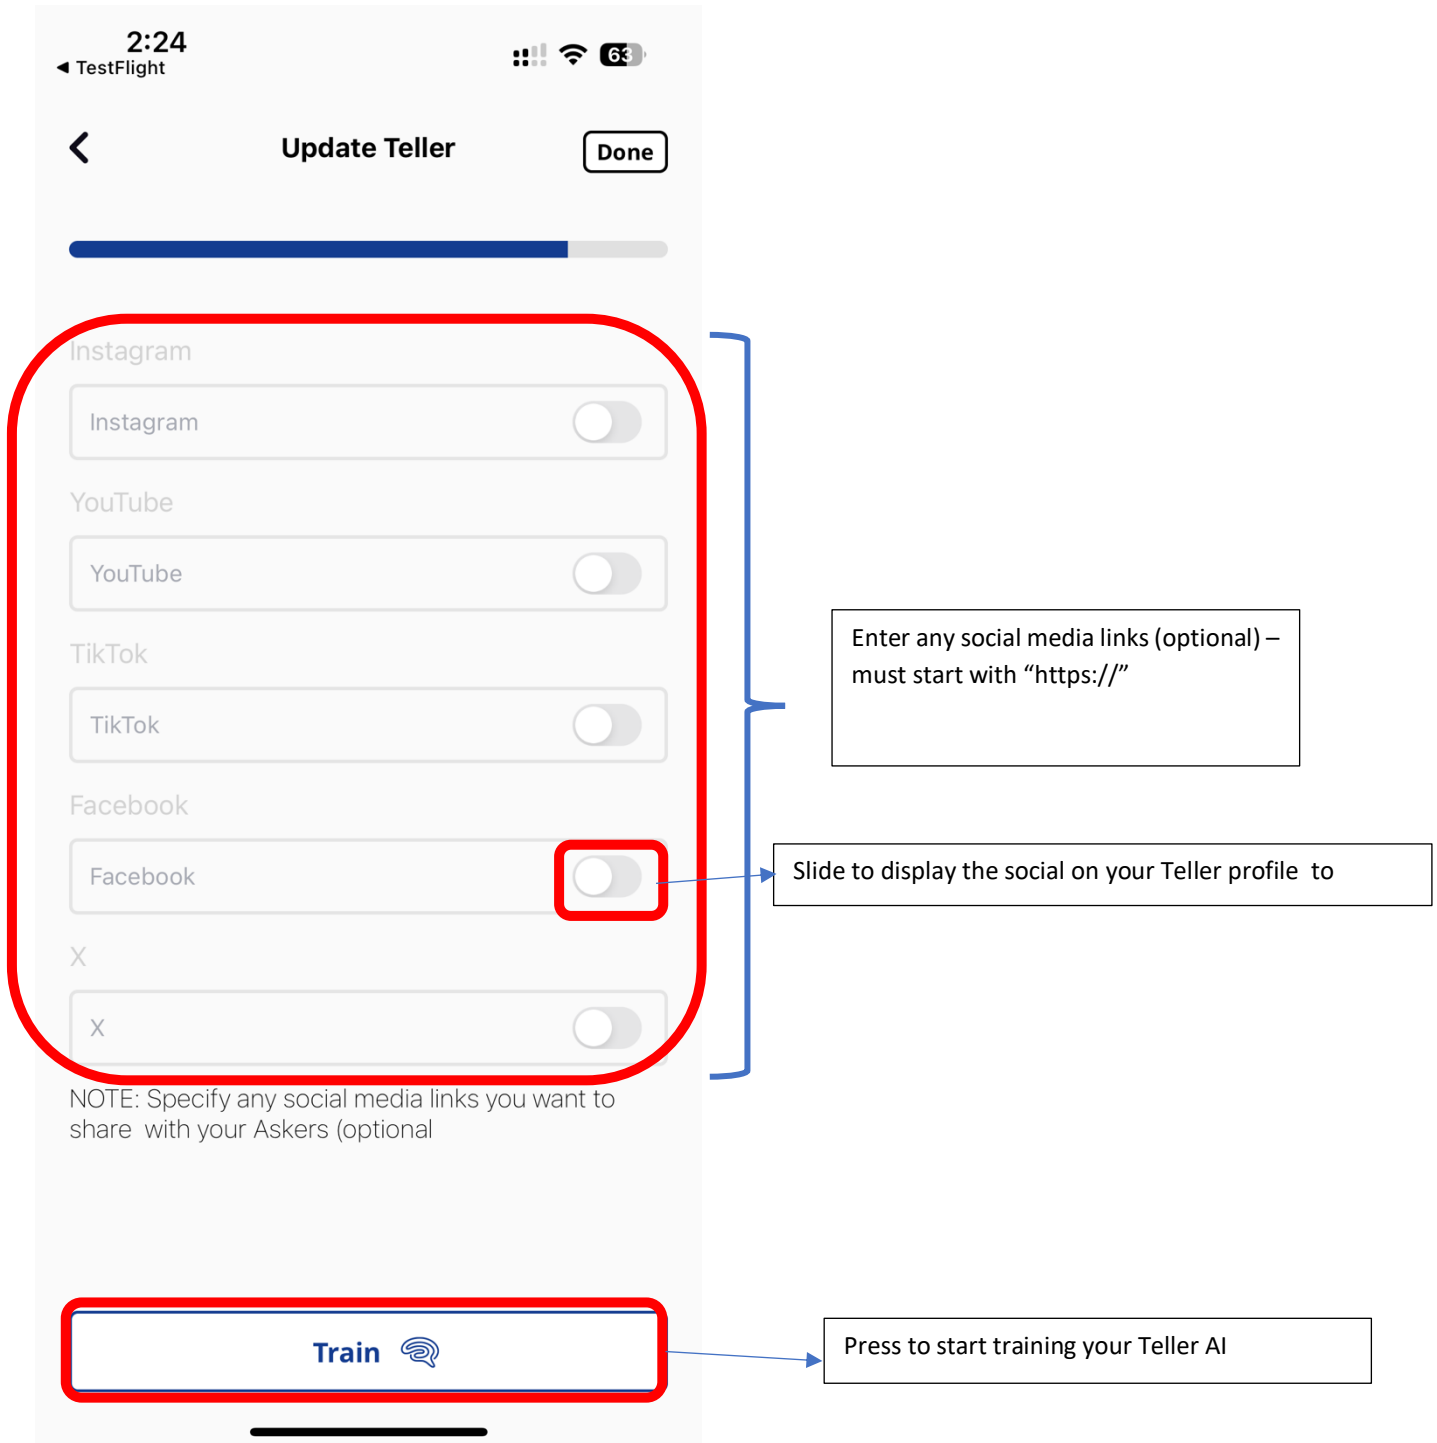

NOTE: Add a brief summary so others know what your Teller is trained to answer. You can also add a wallpaper for your Teller chat screens

Next

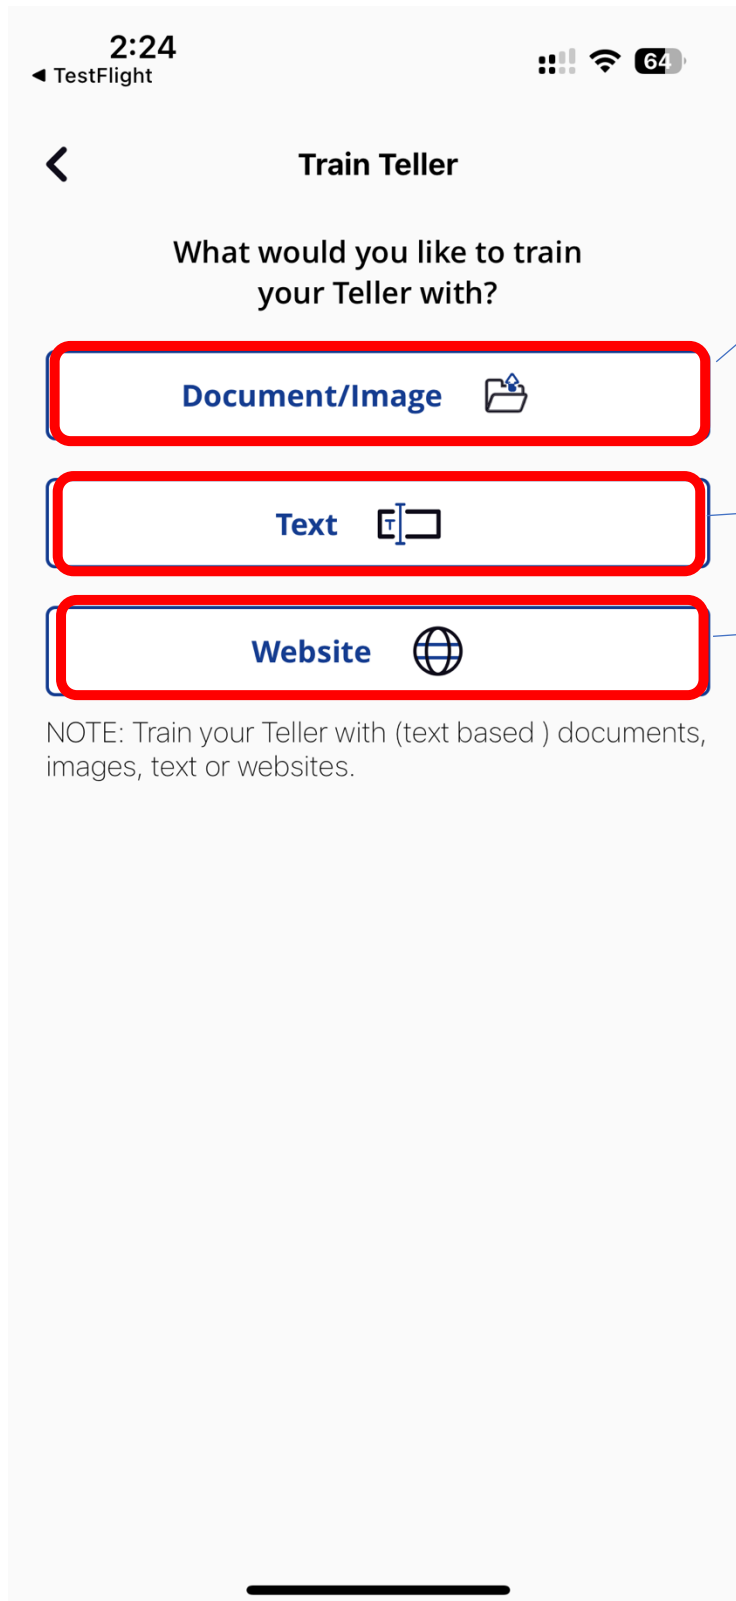

Write a brief summary so other users know what your Teller is trained to answer.

Set a wallpaper (optional) for your Teller chat screen

6.5 SET SOCIAL MEDIA LINKS (OPTIONAL)

SECTION 7 - TRAINING

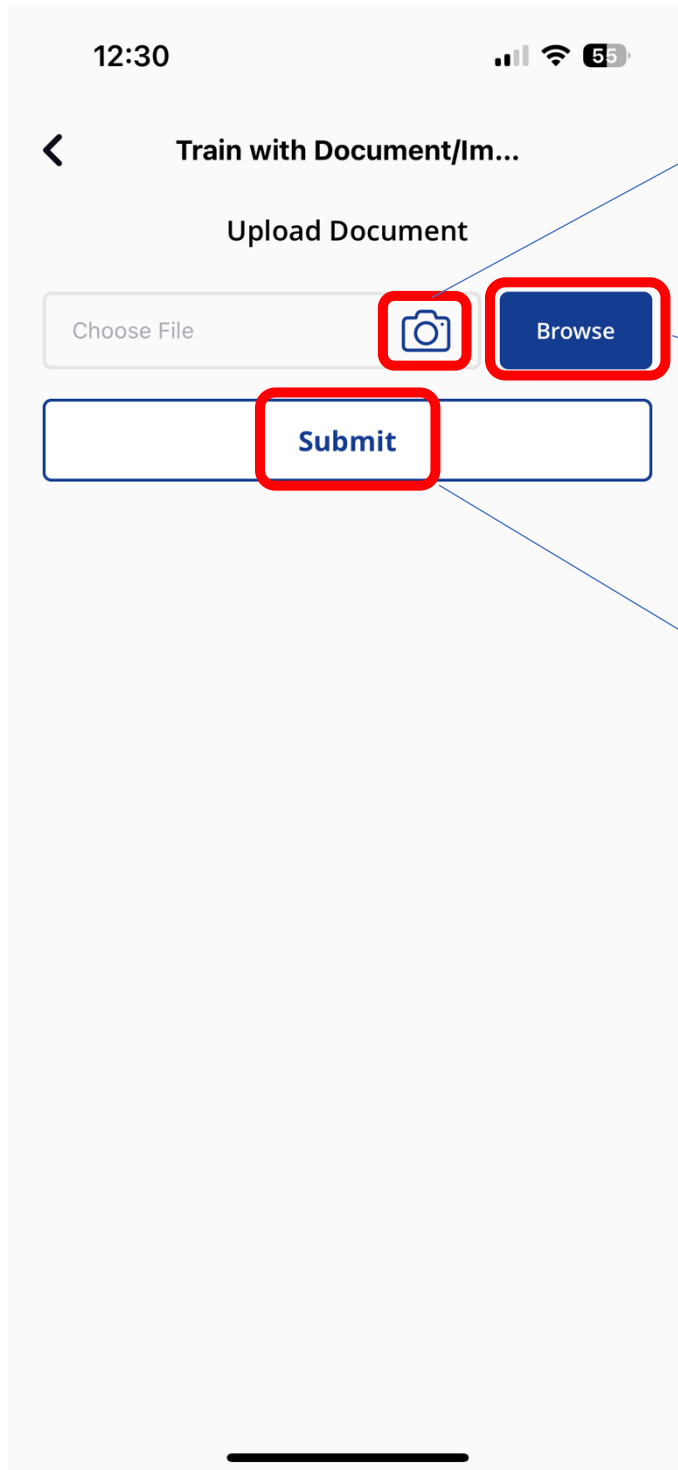

Train with on more documents or Images (from Camera Roll, Camera (JPEG, PNG) , or from Files (PDF, Excel) located on your mobile device. NOTE: images MUST contain text. Tellers are trained based on Text on the uploaded images or files.

Train with free form text

Train based on one or more websites. Website MUST contain text.

NOTE: Training a Teller may take anywhere from a few seconds to several minutes, depending on the amount of textual data. Please avoid exiting the app while training is in progress. If you do exit, you can restart the process.

SECTION 7.1 TELLER TRAINING – DOCUMENTS , PHOTOS OR CAMERA ROLL

Select this to access Camera/Camera Gallery. Note : Images MUST contain text

Select to Access local Files (via Files app) on your mobile device . Support PDF, XLSX, JPEG, PNG, TIFF files . Files MUST contain text for training

NOTE: Training a Teller may take anywhere from a few seconds to several minutes, depending on the amount of textual data. Please avoid exiting the app while training is in progress. If you do exit, you can restart the process.

SECTION 7.2: TELLER TRAINING - TEXT

The screenshot shows a mobile application interface for training a teller. At the top, the status bar displays the time 12:31, signal strength, Wi-Fi, and 5G icons. The app header includes a back arrow and the title 'Train with Text'. Below the header, a prompt reads 'Type in the information you would like to add'. A large text input area with the placeholder 'Type Here' is provided. A blue bracket on the right side of the input area points to a text box containing the instruction 'Enter any amount of text for training'. At the bottom of the input area, a 'Submit' button is highlighted with a red square. A blue arrow points from this button to a text box on the right that reads 'Press to start Training your Teller. NOTE: This can take several minutes, depending on the amount of training data'.

12:31

< Train with Text

Type in the information you would like to add

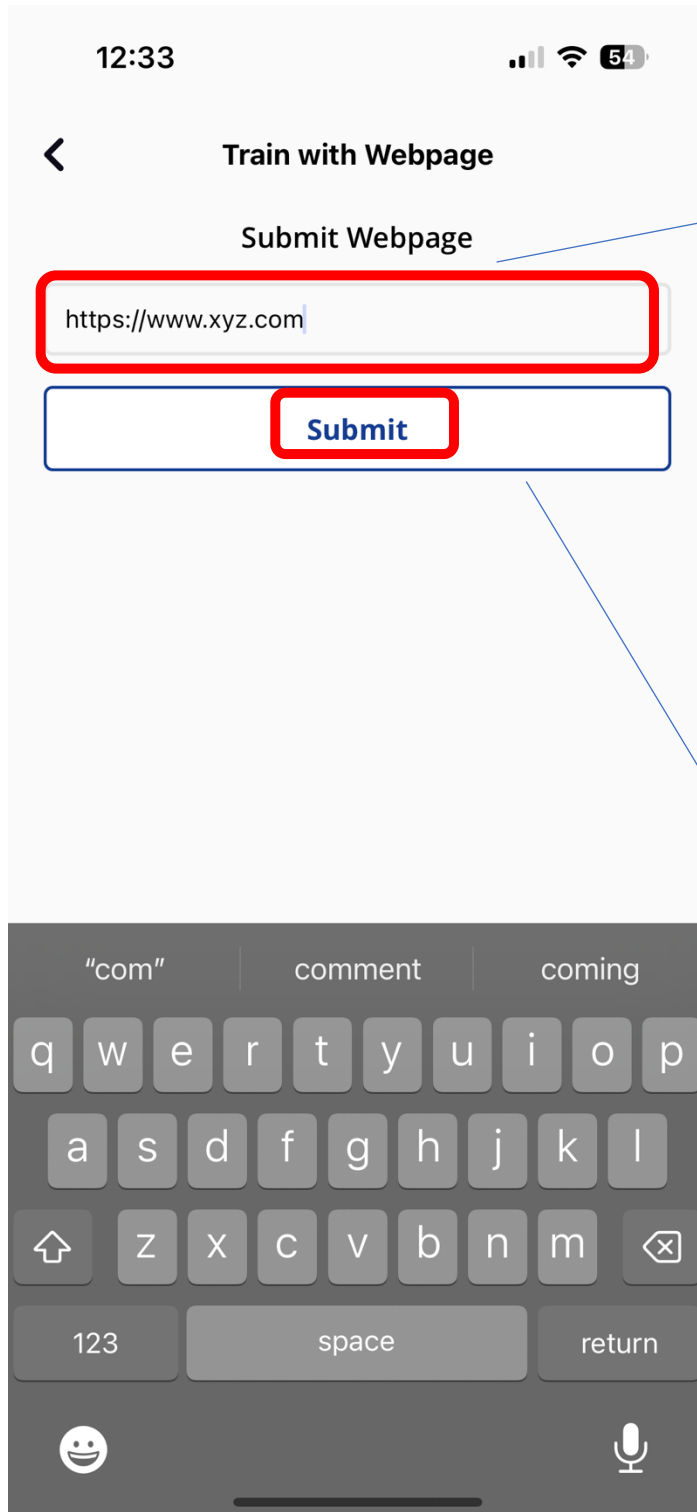

Type Here

Submit

Enter any amount of text for training

Press to start Training your Teller. NOTE: This can take several minutes, depending on the amount of training data

SECTION 7.3: TELLER TRAINING - WEBSITES

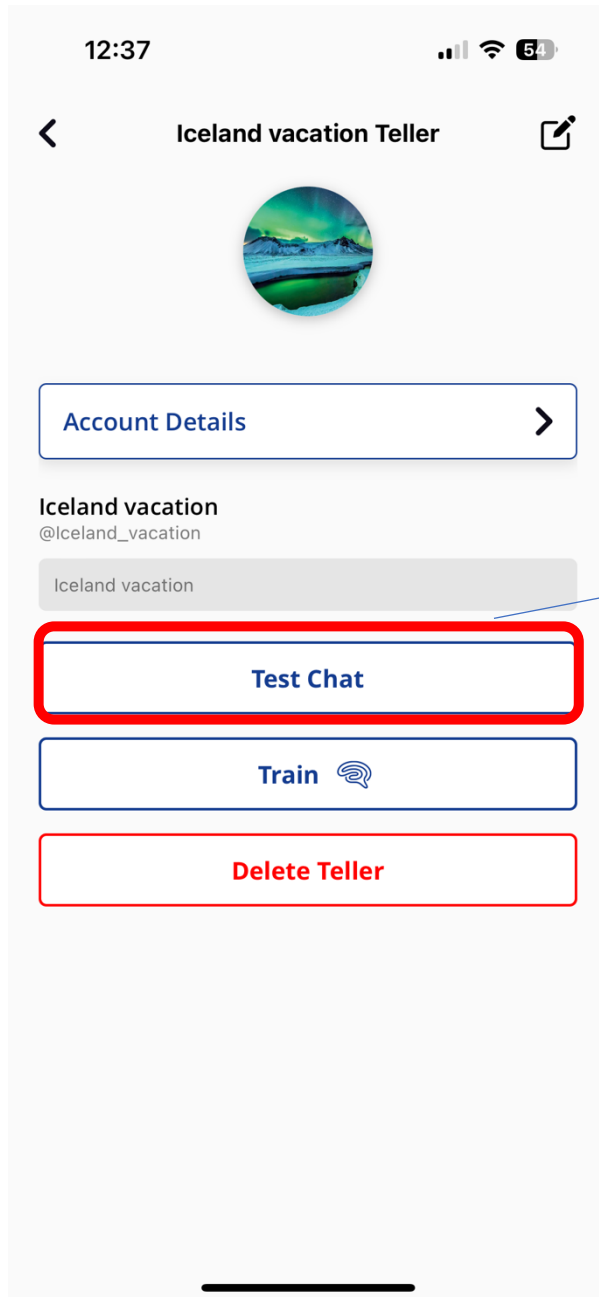

Enter any website which contains content that you want your Teller trained on. **NOTE: Website MUST contain text. If you receive an error when training, please MAKE A NOTE OF THE WEBSITE and let us know which one caused the error. Re-try another website.**

VERY IMPORTANT: Part2AI does NOT traverse the sitemap of the website. If you have a website with multiple sub-pages, you must enter and train with each sub-page separately.

NOTE: Training a Teller may take anywhere from a few seconds to several minutes, depending on the amount of textual data. Please avoid exiting the app while training is in progress. If you do exit, you can restart the process.

SECTION 8: TESTING YOUR NEW AI BOT (TELLER)

Now that you have completed the training, you can test it

This lets you test your Teller, to make sure you are getting proper response to questions

SECTION 8.1: TELLER CHAT TEST AND REGENERATION OF SAMPLE QUESTIONS

The screenshot shows a mobile app interface for 'Atacama'. At the top, the status bar shows 9:34, TestFlight, and 82% battery. The app header includes a back arrow, the 'Atacama' profile picture and name, and a menu icon. The main area features a desert wallpaper with a large blue and green number '2' and the text 'Share the wisdom'. Below this is a list of suggested questions, each in a white box with a shadow. At the bottom is a text input field with the placeholder 'Ask anything...' and a blue paper plane icon. Annotations with arrows point to various elements: 'Delete Wallpaper' and 'Re-Generate' buttons, a list of potential questions, a note about training data, and the input field.

SECTION 9 — MONITORING CHATS WITH ASKERS

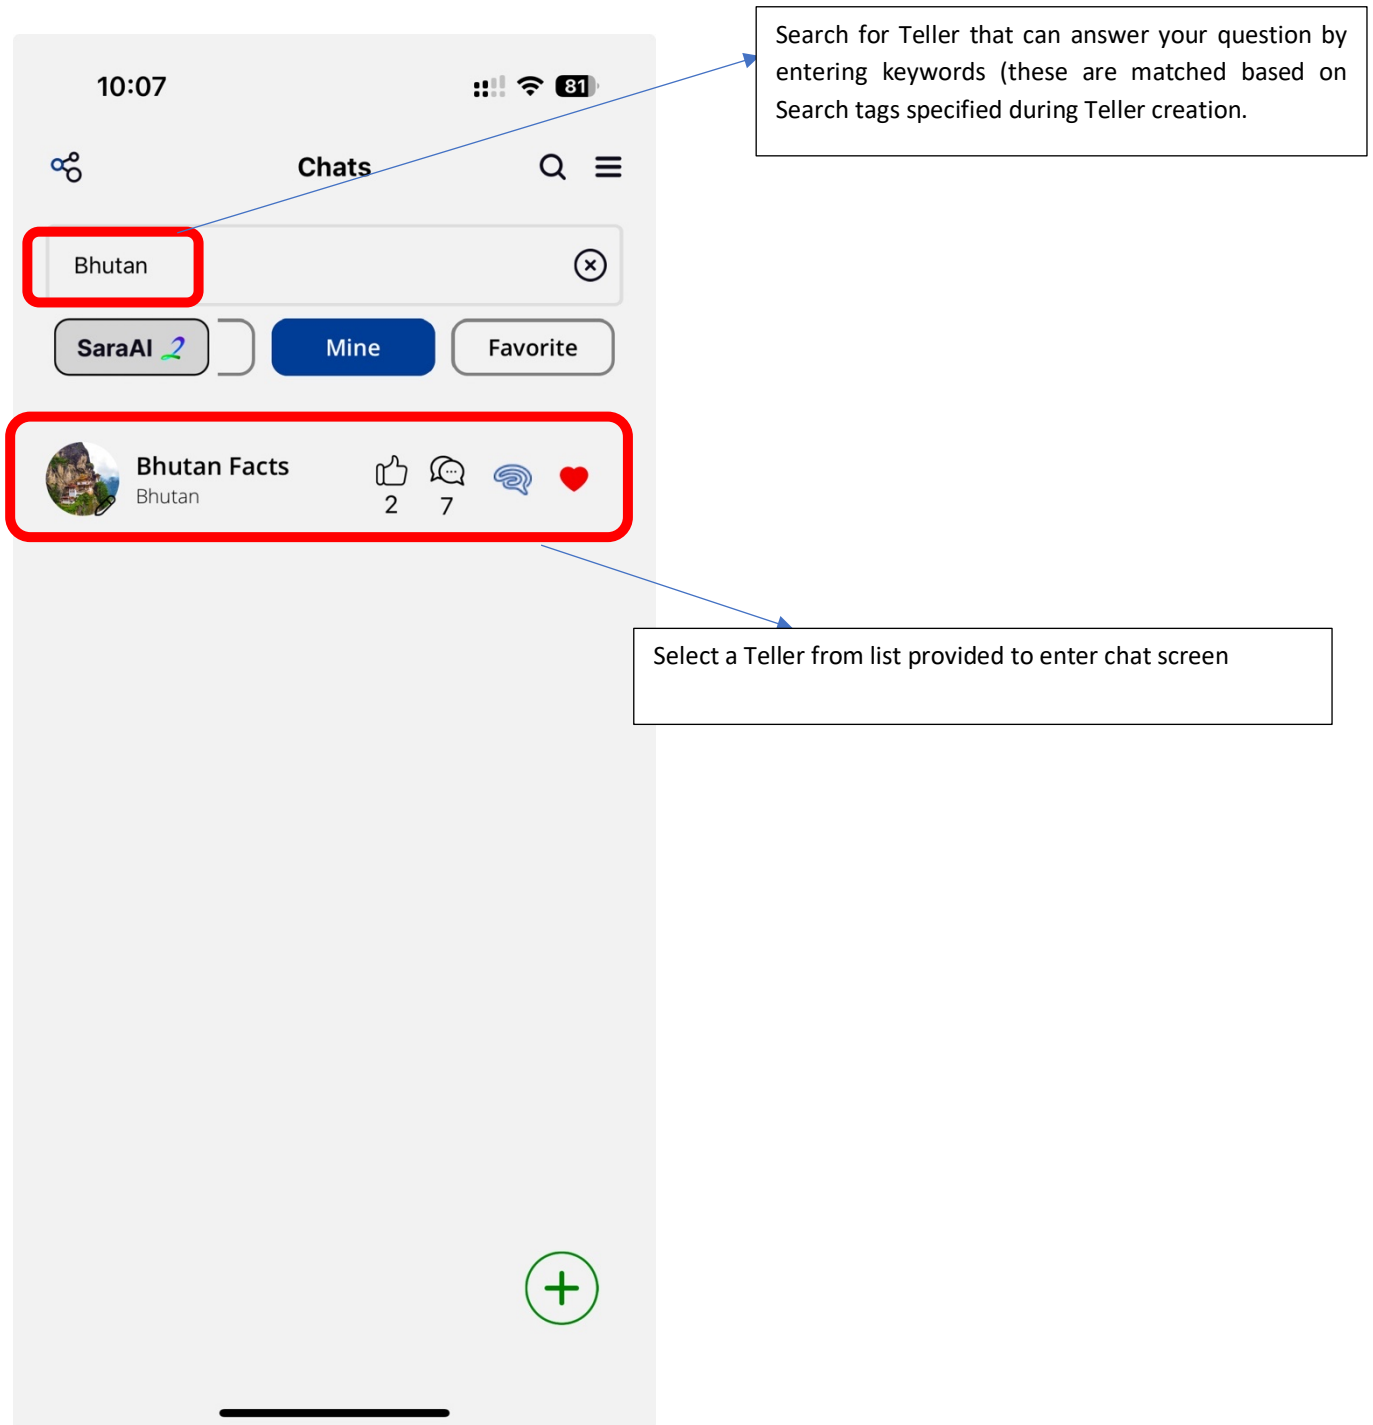

From the Mine tab (see [section 5](#)), select the Teller to view chats that others have had with your Teller

Once you select one of your Tellers ([section 5](#)), you will see a list of Askers that have chatted with your Teller

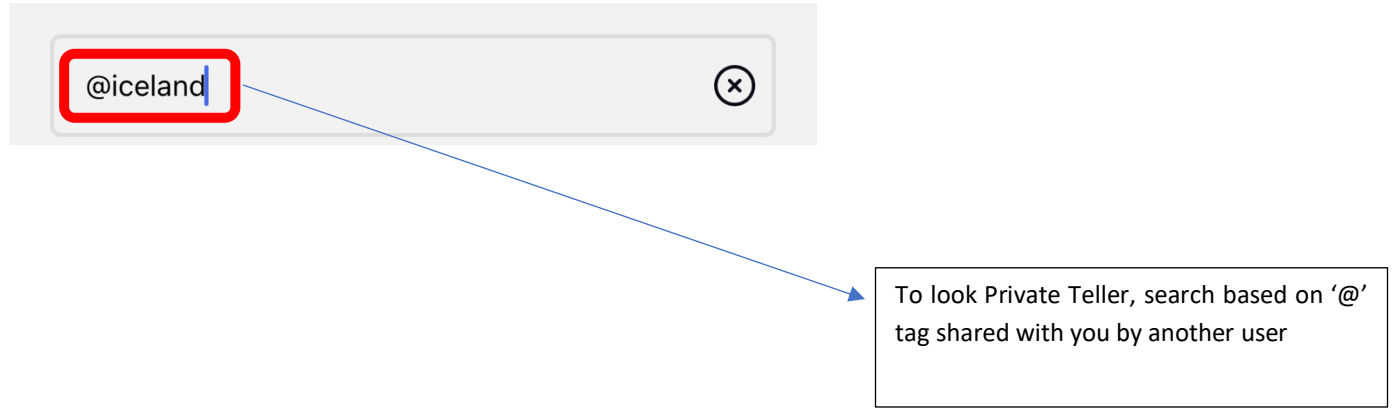

List of all Askers that have chatted with your Teller

SECTION 10: SEARCHING FOR AI BOTS (TELLERS)

SECTION 10.1: SEARCH FOR PRIVATE AI BOTS (TELLERS)

SECTION 11 – CHATTING WITH A TELLER (AI CHATBOT)

The screenshot shows a mobile app interface for 'Atacama'. At the top, the status bar shows 8:12, TestFlight, and 85% battery. The app header includes a back arrow, the 'Atacama' profile icon and name, a thumbs-up icon, and a menu icon. The main content area features a desert landscape image with a large blue and green '2' logo and the text 'Share the wisdom'. Below this, a horizontal scroll bar contains several question cards. A red box highlights these cards, with an arrow pointing to an explanatory text box. At the bottom, a text input field with the placeholder 'Ask anything...' and a blue paper plane icon is highlighted with a red box, with an arrow pointing to another explanatory text box.
