Running Time to Length

 button clears previous entries.

Reset does not reset camera speed or film format, these are changed manually.

Select the **Film Format** by touching the Format button.

Frames per foot or meters appears at the bottom.

Enable the element to calculate by touching its button (**Length** or **Time**) underneath **Calculate**.

Changes to the other box will recalculate that chosen element.

Length also gives Total Frames. Enter the **Camera Speed** into the **FPS** box.

For comparison after calculating, change the **FPS** or **Format** to recalculate the previous result.

URL scheme: pcampro://RunningTime

Notes for all tools:

Use the keyboard +/- buttons for quick changes, and the arrow buttons to jump to the next field.

Favorite Category and Widgets
Add tools to the Favorite List by swiping left to right on a tool in the list within pCAM app.

Your favorite tools will appear in the Favorite Category within pCAM, and also on Widgets on your device's Home Screen.

1) Perform a long press on the pCAM icon and your Favorite Tool List pops up.

2) Choose the small icon to display 4 of your Favorite tools. Choose large icon to display 8 of your Favorite tools.

3) On your device's Today View (swipe right on Home screen), and add a pCAM Widget to contain either 4 or 8 of your Favorite tools.

Tips for using pCAM Pro on Silicon Macs:

To Download:
Must be a Silicon Mac.
Go to the App Store on your Mac. Do a search entering "pCAM Pro," then click on "iPhone & iPad Apps." Download into your Mac's Applications folder.

To Best simulate iPad:
1) Change pCAM Pro/Preferences on the Silicon Mac's top menubar.
General - Change window size to either Smaller or Larger (default).
Touch Alternatives - Turn ON.
- Enables Muti-Touch for swiping and tapping.
- Drag enables your trackpad to pinch within Field of View Preview.

2) Rotate the app from Portrait to Landscape via the Mac's menubar "View." Can also be rotated by single clicking on a corner of the app and dragging to shrink or enlarge.

3) When entering a unit value in one of pCAM's tools (i.e. Focal Length or Distance) an overlay will appear on the right side of pCAM Pro's screen for Units, inches and feet, +/-, jumping between fields, etc.
